Profile Summary

AI and Machine Learning enthusiast with strong fundamentals in programming, data structures, and algorithmic problem-solving. Experienced in building full-stack and data-driven applications with a focus on scalability, performance, and clean system design. Actively seeking opportunities in Artificial Intelligence, Machine Learning, and Software Development to apply analytical thinking and engineering skills to real-world problems.

Education

- **Chandigarh Engineering College** 2023 – 2027
B.Tech in Robotics and Artificial Intelligence CGPA: 9.43/10
- **Arya Senior Secondary School** 2022
Intermediate (Class 12) 91.4%
- **Arya Senior Secondary School** 2020
Secondary (Class 10) 88.6%

Projects

Smart Travel Application (Flutter)

- Developed a cross-platform mobile application for intelligent travel planning and navigation.
- Implemented **route planning**, **live location tracking**, and **budget estimation** using third-party APIs.
- Focused on **real-time data handling**, user-friendly UI, and performance optimization.
- **Tech Stack:** Flutter, Dart, REST APIs

Cryptocurrency Analyzer Website

- Built a **real-time cryptocurrency tracking and analysis platform**.
- Designed interactive dashboards to visualize **price trends**, **market data**, and performance metrics.
- Enabled **live data fetching** and dynamic UI updates for accurate financial insights.
- **Tech Stack:** Python, HTML5, CSS3, APIs

Netflix Clone

- Developed a **responsive front-end clone** of the Netflix user interface.
- Implemented modern UI components such as **carousels**, **banners**, and **content grids**.
- Focused on **responsiveness** and user experience across devices.
- **Tech Stack:** HTML5, CSS3, Python

RSA Web Implementation System

- Implemented **RSA encryption and decryption** logic for secure web-based communication.
- Developed **key generation**, encryption, and decryption workflows using JavaScript.
- Demonstrated understanding of **cryptography fundamentals** and secure data transmission.
- **Tech Stack:** Python, HTML, CSS

Skills

- **Technical Skills:** C++, Java, Python, **System Design**, HTML, CSS, C++ STL, Git, GitHub, MySQL, MongoDB
- **AI / ML:** NumPy, Pandas, **Scikit-learn**, **TensorFlow** (Basics), Data Preprocessing
- **Core CS Concepts:** Data Structures & Algorithms, **Object-Oriented Programming**, Operating Systems, DBMS, Computer Networks, Computer Organization and Architecture
- **Soft Skills:** **Leadership**, Problem Solving, Teamwork, **Communication**, Adaptability, Time Management

Achievements / Participation

- **District Topper** in a National-Level Examination
- **Top 700 participant across 11 countries** in the Ericsson Edge Academia Program
- Campus Executive, **E-Cell IIT Bombay**
- Member, **Training Advisory Council (TAC)**
- **Ranked 1st** in Robotics and Artificial Intelligence branch
- Actively involved in organizing and participating in **technical workshops, training sessions, and knowledge-driven events**
- Participated in multiple hackathons, strengthening problem-solving speed, teamwork, and practical implementation skills

Extra-Curricular Activities

- Active LinkedIn content creator sharing insights on AI/ML, DSA, and software engineering topics
- Regular participant in hackathons, coding contests, and technical seminars
- Engaged in peer learning, mentoring juniors, and collaborative technical discussions

Certifications

- **Building AI-Powered Search with MongoDB Vector Search** – MongoDB *View Certificate*
- **Ericsson Edge Academia Program Top 700** – Ericsson *View Certificate*
- **Search with MongoDB** – MongoDB *View Certificate*
- **Professional Skills** – IBM *View Certificate*
- **Generative Ai** – Coursera *View Certificate*
- **Communication Skills** – IBM *View Certificate*
