## Profile Summary

Computer Science undergraduate (Class of 2027) with hands-on experience in IT operations, service monitoring, and infrastructure automation. Skilled in deploying and monitoring web services on cloud and hosted infrastructure, building CI/CD pipelines (GitHub Actions), and automating test and reporting workflows using Python and shell scripting. Experienced with REST API testing (Postman), UI automation (Playwright), relational databases (MySQL, PostgreSQL), and basic AWS. Built a complete QA and monitoring process around a live project – including test plans, defect tracking, and automated alerts/checks across API and UI layers. Comfortable reading vendor/internal reports, coordinating with engineering teams, and driving issues to resolution. Analytical, detail-oriented, and quick to pick up new tools, dashboards, and codebases.

## Education

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| <b>Bachelor of Technology in Computer Science and Engineering</b> | 2023 – 2027 |
| Chandigarh Group of Colleges, Jhanjeri   CGPA: <b>9.43</b>        |             |
| <b>Senior Secondary School Education</b>                          | 2022        |
| Arya Senior Secondary School, Narwana   Percentage: <b>91.4%</b>  |             |
| <b>Secondary School Education</b>                                 | 2020        |
| Arya Senior Secondary School, Narwana   Percentage: <b>88.6%</b>  |             |

## Projects

### TaskFlow Mini – Service Quality & QA Monitoring Project [🔗](#)

- Deployed a Task Management Web Application to hosted cloud infrastructure (Render) and set up a GitHub Actions CI/CD pipeline for continuous deployment of updates
- Built automated API and UI test suites (Postman, Playwright) acting as service-health checks, flagging failures early and reducing manual verification effort
- Created 20+ documented test cases and a defect log with severity/priority classification to track service quality over time
- Wrote and executed ad-hoc verification scripts to monitor endpoint availability and response correctness
- Tech Stack:** HTML, CSS, REST APIs, Playwright, GitHub Actions, Postman, HTTP

### Smart Travel Application [🔗](#)

- Developed a cross-platform trip planning app using Flutter, integrating with third-party REST APIs (Google Maps, travel data) and Firebase cloud backend
- Built route optimization and automated itinerary management features, reducing trip planning time by 15%
- Handled API error states and added logging around external API calls to track integration reliability
- Tech Stack:** Flutter, Dart, Firebase, REST APIs, Google Maps API, Geolocation Services

### Waste AI Classification System [🔗](#)

- Built an AI/ML waste classification system using CNN with TensorFlow/Keras; benchmarked 4 deep learning architectures and selected InceptionV3, achieving 91% accuracy across 6 categories
- Deployed and monitored the model as a live web service via Streamlit, writing validation scripts to check model reliability over time
- Tech Stack:** Python, CNN, InceptionV3, TensorFlow/Keras, Streamlit, Git

## Skills

- Programming & Scripting:** Python, Shell scripting basics, C++ (OOP, Data Structures & Algorithms), SQL, Java (Basic)
- IT Operations & Monitoring:** Service uptime/health tracking, ad-hoc and automated reporting, basic AWS CloudWatch exposure, log-based debugging
- CI/CD & Automation:** GitHub Actions, CI/CD basics, automated test scripting (Playwright), build/deploy pipelines
- Web & Backend:** HTML, CSS, REST APIs, JSON
- Databases:** MySQL, SQL Joins & Queries, Firebase, PostgreSQL
- Testing & QA:** Manual Testing, API Testing, UI Automation, Test Plans & Test Case Design, Bug Reporting, Jira (Basic), TestMu-AI
- Tools & Platforms:** Git & GitHub, basic AWS, VS Code
- Core CS & System Design:** Data Structures & Algorithms (400+ LeetCode), OOP, DBMS, Operating Systems, Computer Networks (basics), System Design fundamentals
- Soft Skills:** Analytical Problem Solving, Self-Starter, Team Collaboration, Communication, Ownership, Leadership

## Achievements & Leadership

- District Topper** in a National-Level Examination
- Top 700 participant across 11 countries** in the Ericsson Edge Academia Program
- Campus Executive, **E-Cell IIT Bombay** — led cross-functional teams to organize technical events and workshops
- Member, **Training Advisory Council (TAC)** — collaborated with faculty and student teams on curriculum initiatives
- Served as **Tech Lead** for a **CodeChef-collaborated coding event** with **500+ participants**, overseeing technical coordination, event execution, and participant engagement
- Ranked 1st** in Robotics and Artificial Intelligence branch
- Participated in **multiple hackathons** as a team member, strengthening agile problem-solving, teamwork, and rapid prototyping

## Certifications

- Introduction to MySQL** – Infosys [🔗](#)
- LLMs on Google Cloud: Retrieval-Augmented Generation on Vertex AI** – Infosys [🔗](#)
- Building AI-Powered Search with MongoDB Vector Search** – MongoDB [🔗](#)
- Introduction to Modern AI** – Cisco [🔗](#)
- Search with MongoDB** – MongoDB Community [🔗](#)

- **Professional Skills** – IBM [🔗](#)
- **Introduction to Generative AI** – AWS [🔗](#)
- **AWS Cloud Practitioner Essentials** – AWS [🔗](#)
- **Linux System Administration Basics** – [🔗](#)
- **Jenkins CI/CD Fundamentals** – [🔗](#)
